

We engineer the future of software & AI.

PT Beyonder Technology Solution is a product & engineering studio from Indonesia.

We design, build and operate production software end-to-end — SaaS, AI systems and digital platforms — engineered to a global standard.

LIVE & OPEN TO VISIT

AI-native

ENGINEERING STANDARD

01

SOLUTIONS

SaaS Product Engineering

Full-stack, multi-tenant SaaS with auth, billing and dashboards.

AI & Applied Machine Learning

LLM integration, explainable AI, data pipelines and AI analytics.

FinTech & Trading Systems

Trading journals, algorithmic systems, market-data pipelines, payments.

Cloud, DevOps & Infrastructure

Containerized deployments, CI/CD, TLS, monitoring, self-hosted infra.

HealthTech & Compliance

Clinic/EMR systems and national health-data interoperability (SatuSehat).

Custom Software & Digital Transformation

Bespoke business applications for UMKM and enterprise.

02

FOUNDERS

FI**Fajri Illahi**

Founder · Physicist (B.Sc Physics, ITB) & technologist

F**Fadhlillah**

Co-founder · Engineer with a background in mathematics (UGM) & medicine (UMJ)

Two science-trained founders — physics, mathematics and medicine — who design, build and ship production software end-to-end, across engineering, product, business and legal.

Jarvis

AI OPS · INTERNAL PLATFORM

AI operations command center — agents that design, ship, review and operate the portfolio.

Nadi

HEALTHTECH · B2B

Clinic & EMR system for Indonesia, integrated with the national SatuSehat platform.

PostLab

CREATOR ANALYTICS

Measures AI-assisted vs human content performance across Instagram, YouTube and TikTok.

Between Us

SOCIAL · CONSUMER

A psychology-driven conversation game with pass-the-phone play and live multiplayer rooms.

PipJournal

FINTECH · TRADING

A forex & CFD trading journal that turns raw trade history into a measurable edge.

Finemark

FINTECH · GOLD STRATEGY

Transparency-first, rules-based gold (XAU/USD) trend-following with a 22-year honest backtest.

Memescape

AI · CRYPTO

Explainable-AI memecoin screener that scores tokens with transparent, readable reasoning.

Stralm

AI · MARKET INTELLIGENCE

Global startup-funding intelligence — rounds, investors and sector trends in one place.

Stokku

RETAIL · UMKM SAAS

Multi-tenant inventory, stock and point-of-sale platform for Indonesian fashion UMKM.

Outcome

PRODUCTIVITY · B2B SAAS

Turns meetings into shipped outcomes — decisions and team-shared action items with owners.

Mekar

HEALTHTECH · CONSUMER

A bilingual period-tracking app with calendar, insights, diary and community.

AdopsiKu

MARKETPLACE · SOCIAL IMPACT

A free, Bali-focused pet-adoption platform connecting rescued animals with new homes.

Property Management System

PROPTech · ENTERPRISE

A property & rental management platform — contracts, listings and operations.

QuickSell Bali

SERVICE · MARKETPLACE

Marketing site + internal deal-tracker for a Bali expat asset-buying service with live FX.
